About Us:

Eshwar Food and Packaging established in the year 2005, we have evolved into a fully integrated Corrugated Boxes Manufacturers. We manufacturers various types of corrugated Boxes ranging from export quality boxes to heavy duty Boxes.

We have newly established 3Ply & 5Ply **Fully Automatic Plant** with sophisticated machineries, having a capacity of 1500 tons/month to cater our clients with world class quality equipment's and machineries.

We are servicing clients across several industries such as Electronics, Food & Beverages, Textiles, Interior Furniture, Lubricants & FMCG and many more. We cater SME's as listed companies.

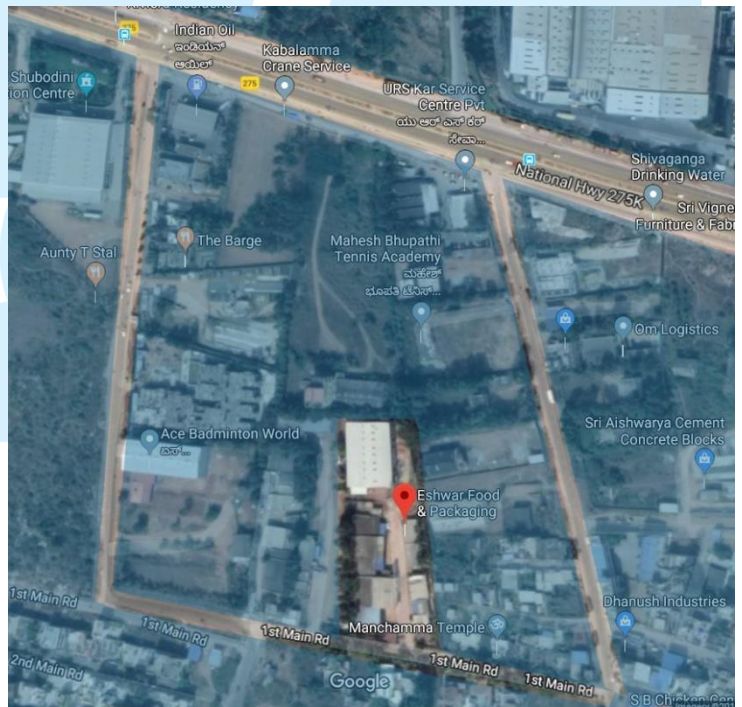

Our Infrastructure:

Plant 1: Fully Automatic Plant

This Manufacturing Facility spans over 1.2 acres of Self-Owned Land with Factory Building spanning 22,000 Sq. Ft. Carpet Area.

Plant 2: Semi-Automatic Plant

This Manufacturing Facility spans over 1.2 acres of Self-Owned Land with Factory Building spanning 9,500 Sq. Ft. Carpet Area.

Our Products:

Regular Slotted Containers

This is the most common box style. All flaps are the same length from the score to the edge. Ideal for: shipping small individual items such as cups and mugs, books.

Corrugated Trays

Corrugated Trays are basically trays to hold other objects. They are advantageous when product visibility and easy handling are of prime importance. Ideal for: food and beverage industry products such as bottled water, soft drinks, snack foods, and bulk packaged processed foods.

Half Slotted Containers

Half slotted containers are similar to regular slotted containers except that they have only one set of flaps. The opposite side of the box is open, which allows it to slide over an item. Ideal for: large and heavy objects such as refrigerators and washing machines.

Die Cut Custom

These are custom corrugated boxes developed to exact specifications depending on customer requirements. Box master can manufacture custom boxes with FULL colour, available in all styles and custom sizes. Ideal for: unique products with special requirements such as cosmetic product boxes, toy product boxes, gift product boxes.

Full Over Lap

The outer flaps overlap the full width of the box making it especially resistant to rough handling. All flaps are the same depth, and their depth equals the width of the box. Ideal for: heavy objects that require extra support such as refrigerators and washing machines.

Roll End Tuck Top

These are simple unglued boxes that need to be folded when assembled. These are great for shipping narrow items. Ideal for: vitamin packaging, retail packaging, coffee packaging, tea packaging.

Why Us:

- **PRODUCT QUALITY**

Being in this Industry since 2005, we have gained strong foothold on Product Quality employing various measures and processes at Equipment Level as well as Internal Checks.

- **STATE OF THE ART MACHINES**

We believe in leveraging the latest technology and updated equipment's to its great extent. We have recently added up all the machines with Latest Technology.

- **TIMELY DELIVERY**

Being in this industry for last 14 years, we understand the importance of Timely Delivery for customer, hence we have developed our organizational processes to cater the requirements of Customers in best possible manner.

- **CUSTOMIZED SOLUTIONS**

Our long experience in this industry has helped us to develop an expertise to work out any type of Box depending on the Customer's requirements at the best possible Prices.

Product Quality:

- **Better Compressive Strength**

Automated machine board gives the boxes better compressive strength and bursting strength.

Multi-Colour Printer & Die-cutting will be handled by a single machine.

- **Uniformity & Consistency**

Automated Machines results into Uniformity of Products & Consistent Quality at Every stage.

Quality Control Lab:

Instrument	Measuring range
Bursting Strength Tester	0 – 30Kg/sq.cm (Paper & Board)
Compression Strength Teste	0 – 900N
Moisture Tester	0%-20%
Paper Grammage Scale	0 - 500gm
Accurate Weighing Scale	1 Kg – 20 Kg

Equipment's & Technology:

Automatic 3Ply & 5Ply Board Making Plant

Multi-colour Printing and slotting

Automatic Folder & Gluer

Semi-automatic Stitching
